Financial Report
Fiscal Year (FY) 11/12
(Through 6/30/12)

• **Overview**..... **G**

BPM continues to strictly monitor its expenditures, while ensuring that its licensing and enforcement programs continue to provide efficient and effective services to its consumer and licensee populations. BreEZe implementation costs remain a concern as the Board's relatively invariable licensee base and revenue stream cannot offset these new costs. BPM will be working with the DCA Budget Office in the Fall of 2012 to explore the enactment of a renewal fee increase in 2013 to take effect in 2014. As reflected in the fund conditions shown under Exhibits J and K, this measure is necessary in order to stabilize the Board's fund and ensure long-term solvency.

• **Budget**..... **H**

While a number of departmental and statewide pro rata costs have increased slightly in recent years, "discretionary" expenditures such as General Office Expenses and Travel have decreased or remained stable as a result of careful planning and strict budget management. Staff will continue to ensure that all contracts, acquisitions and travel are of a mission-critical nature.

Nineteen percent (19%) of the Board's expenses (projected through 6/30/12) have been for Departmental/Central Administrative Services, which include: maintenance of licensing and enforcement systems, website maintenance, telecommunications, personnel, pc support, internet services, and other administrative support services.

Thirty-three percent (33%) of the Board's total expenditures (projected through 6/30/12) have been for enforcement-related costs associated with services provided by the Office of the Attorney General, the Office of Administrative Hearings, Medical Board Investigations staff, and podiatric medical experts and consultants.

- \$ Expenditure Trends [FY 05/06 through FY 11/12 (projected)] (Chart)
- \$ Breakdown of Actual General Office Expenses [FY 05/06 through FY 11/12 (projected)]
- \$ Breakdown of Medical Board Shared Services costs [FY 07/08 through FY 11/12]

• **Enforcement Expenditure Trends**..... **I**

At our last Board meeting, enforcement expenditure trends were presented for FYs 2006/07 – 2011/12. These data appeared to indicate that Attorney General (AG) costs were extremely high relative to previous years. While this disparity was found to be due to heavier workloads occurring in the latter half of previous FYs, the gradual increase in annual AG costs was analyzed. As Table 1 indicates, total attorney hours increased significantly in FYs 2009/10 and 2010/11 and resulted in proportionate cost increases (Table 2). Current FY data appears to be following this trend, but was omitted since year-end invoices have not yet been received. Factors contributing to the increase may include increased case complexity or the Vertical Enforcement process recently incorporated into BPM's Enforcement Program, which requires AG involvement in earlier stages of the enforcement process. Staff will continue to examine these trends.

• **Fund Condition**.....J

The enclosed fund conditions show projections using BPM's actual and future planned expenditures and DCA's plan, which assumes full budget expenditure from FY 2012/13 forward. Note that while BPM's projection provides a more accurate and positive outlook, a potentially declining reserve balance indicates a need to continue monitoring revenues and expenditures and identify potential solutions to ensure future fund stability.

The BPM Budget History table and chart reflect budget, revenue, expenditure, and reserve figures for FYs 1996/97 through 2011/12. As the chart indicates, revenues have remained very stable over the past several years. Expenditures, however, have fluctuated in a manner very consistent with budget changes, which are largely determined by *pro rata* and other nondiscretionary disbursements.

- \$ BPM Fund Condition [DCA Projection through 6/30/15]
- \$ BPM Fund Condition [BPM Projection through 6/30/15]
- \$ BPM Budget History [FY 96/97 through FY 11/12 (projected)]

Proposed renewal fee increase.....K

BPM's budget history (Tab J, p. 3) clearly indicates that a balance between the Board's annual revenues and expenditures must be reestablished. Revenues have not exceeded expenditures since FY 2006/07, and the Department-wide BreEZe project and other essential Information Technology system improvements will lead to future Departmental cost increases. These increases cannot be offset by the Board's existing fee structure due to its relatively invariable licensee base and resulting revenue stream, as renewal fees account for approximately 90% of the Board's annual revenue. Attached are several scenarios showing the impact of a renewal fee increase on the Board's long-term fund stability.

- \$ BPM Fund Condition – proposed renewal fee increase (\$980)
(future expenditures projected based on historical data)
- \$ BPM Fund Condition – proposed renewal fee increase (\$1100)
(future expenditures projected based on historical data)
- \$ DCA Fund Condition – proposed renewal fee increase (\$1500)
(assumes full budget expenditure from FY 2012/13 forward)
- \$ DCA Fund Condition – proposed renewal fee increase (\$1600)
(assumes full budget expenditure from FY 2012/13 forward)

Overview.....L

BreEZe update:

In the past several months the BreEze project has made big progressions. Due to the extensiveness of the project the planned Release 1 go-live date currently scheduled for September 2012 will now be moved to October 2012. This new Release 1 go-live date will allow staff to dedicate the necessary time to thoroughly analyze the converted data that is coming into BreEze from the legacy systems and verify its accuracy. The proposed go-live date is scheduled for October 15, 2012.

APMLE Part III Exam:

The Part III exam held on June 13th had a pass rate of 96% with only one examinee not passing by the National Boards standards. The next part III exam is scheduled for December 5, 2012 and examinees must register by October 24, 2012. Registration and credit card payment is now available via the NBPME website.

Continuing Competence and CME Audit:

The Board is currently in the process of conducting the 2012 annual audit for licensee Continuing Competence and CME requirements. The randomly selected 20 licensees (one percent) have a scheduled renewal date of November 30, 2012 and must submit documentation no later than November 1, 2012.

Licensing Statistics.....M

California Residency Program Application.....N

Effective July 1, 2011, the Council on Podiatric Medical Education began converting all approved programs to a single, three-year program, the Podiatric Medicine and Surgery Residency. Therefore, if an institution has the capability of providing training in reconstructive rearfoot/ankle surgery, then it will receive the RRA (Reconstructive Rearfoot and Ankle Surgery) designation as well. All programs approved by the Council will be converted by July 1, 2013 to a podiatric medicine and surgery residency (PMSR), via document submission or on-site evaluation.

All About BreEZe

How Will BreEZe Change the Way DCA Does Business?

*It's time to start thinking
about the....*

As each Board/Bureau gets closer to their BreEZe implementation date, it is important to anticipate how it will change the way job functions are performed. Currently, job functions are performed manually or semi-manually - BreEZe will automate many of these manual processes. The BreEZe system is very robust and we are learning more and more each day about its functionality and how it will change the way DCA does business. Below are a few topics to think about to help each Board/Bureau anticipate and prepare for the changes ahead.

Document Imaging. BreEZe provides the capability of attaching scanned documents to records within BreEZe, similar to how documents are attached to email in Outlook. Will your process change to require all hard copy documents be scanned and attached to the appropriate record within BreEZe? If so, who will perform this function?

Mail vs. Online for Applications/Renewals/Complaints. Once BreEZe is implemented Boards/Bureaus will receive applications, renewals and complaints online and through the mail. How will this be handled? Will you process applications, renewals and complaints received via the mail differently than those you receive through the online system? For instance, will applications, renewals and complaints received online be printed out and put into a hard copy file or will you use a paperless system to complete the online processes? Who will perform this function?

Prescreened Applications. Applications received online will be prescreened for completeness. How will this impact your Board/Bureau? Will this free up some time for staff to perform other duties?

The Organizational Change Management (OCM) Unit will continue to provide topics that require decisions on whether there could potentially be a policy, role, or process change. Additionally, the Strategic Planning & Development Unit, along with OCM, can assist with the development of a Transition Manual that will help document current processes, identify potential changes, and document "to be" processes. Please contact your OCM Coach if you are interested in the development of a Transition Manual specific to your Board/Bureau.

Benefits of These Changes

- Streamlined processes
- Increased efficiency
- All information on a specific individual/organization can be stored in one place

IMPLEMENTATION PLAN FOR CPME 320 AND 330

At its October 2010 meeting, the Council on Podiatric Medical Education formally adopted publications 320, *Standards and Requirements for Approval of Podiatric Medicine and Surgery Residencies*, and 330, *Procedures for Approval of Podiatric Medicine and Surgery Residencies*. The implementation date for both documents is July 1, 2011.

The Council also adopted an implementation plan for the transition to the new documents. **All programs approved by the Council will be converted by July 1, 2013 to a podiatric medicine and surgery residency (PMSR), via document submission and/or on-site evaluation.**

APPROVED PROGRAMS (PM&S-24 and/or PM&S-36)

Approved PM&S-24 and PM&S-36 programs scheduled for on-site evaluation during the 2011-2012 and 2012-2013 training years will convert to the PMSR using the normal process – each program will submit pre-evaluation materials, a visit will be conducted, and the Residency Review Committee (RRC) and the Council will consider approval based on review of the team report.

By December 1, 2010, the Council will contact programs not scheduled for on-site evaluation during the 2011-2012 and 2012-2013 training years with the date by which the program must submit documentation that is identified in the Appendices. Generally, the Council is requesting that the program document compliance with new requirements related to medicine rotations, medical case volume, and surgical procedure volume.

The process will be divided into three phases. A third of the programs not scheduled for evaluation during the 2011-2012 and 2012-2013 on-site visit cycles will have a deadline of August 1, 2011 to submit information; the second third on February 1, 2012, and the remaining third on August 1, 2012. Programs will be selected based on their next scheduled evaluation date (i.e., those scheduled for 2013-2014 will be first).

Once all documentation from a program is received by the Council, the information will be forwarded to the RRC for review. Based on its review of all documentation, the RRC will forward an approval status recommendation to the Council relative to the program's conversion to a PMSR. All programs will be reclassified to a PMSR, with the current number of approved positions each year. As in the case with consideration of all progress reports, the Council's review may result in a request for additional information or a change in the program's approval status.

Residents in the program at the time of conversion (either through document review and/or on-site evaluation) will have the option of meeting the requirements for and taking the PM&S certificate or meeting the requirements for and taking the PMSR certificate.
