LICENSING AND MEDICAL EDUCATION COMMITTEE

- **Overview**

- ❖ The results of the National Board's Part III exam held June 2, revealed an 83% pass rate for California applicants. The next Part III exam is scheduled for December 1, 2010.
- ❖ Residency Program Applications for 2010-11 have all been returned and were approved by the Licensing and Medical Education Committee in June 2010.

- **Data Reports**

- ❖ Licensing numbers remain consistent as shown in Exhibit G.

- **Licensing Flow Chart**

- ❖ Licensing statistics are being submitted monthly to the Department of Consumer Affairs Executive Office as they work to eliminate backlogs found in many of the Boards. The Board of Podiatric Medicine is not experiencing backlogs, but is still required to report. Also shown in Exhibit H is a flow chart of our licensing process which all boards were required to submit.

ENFORCEMENT COMMITTEE

a. Overview.....I

Citation and Fine Policy: Department of Consumer Affairs Director, Brian Stiger, sent out a memorandum (exhibited on next page) informing all boards and bureaus of recent discussions with Agency to maximize the use of existing enforcement tools. The proposed change in the citation and fine regulations would eliminate the need to have circumstances 1-4 apply before the Board could issue a citation and fine between \$2,501 and \$5,000.

Status of Probation Program: On June 25, 2010, staff held its annual probation meeting. Staff and probation monitors reviewed CME and other educational courses that have been approved to satisfy probation conditions, procedures on the two year license cancelation condition that is used for tolled probationers, updates to probation forms, and specifications and procedures for "First Lab," the new biological fluid testing company that is in place for probationers. Staff is pleased with the results of the probation program and is fortunate to have Ms. Christina Holley as the current Probation Coordinator.

Revisions to Enforcement Manuals: Staff has been working on revisions to BPM's Enforcement Manual, Cite and Fine Manual and the Probation Manual. These manuals contain all standard operating procedures and forms for consultants, staff, and investigators working with cases in MBC's complaint unit, field offices, and the board office. Once the revisions are in place, they will be posted to DCA's intranet Knowledge Management Center.

Expert Reviewer Training: On June 22, 2010, staff held an Expert Reviewing Training Session. The panel of subject matter experts consisted of: Joseph Giacopelli, DPM - Case Review Session; John Hirai, Supervising Investigator II, Medical Board of California - Investigation Process; Heidi Weisbaum, Deputy Attorney General, Office of the Attorney General - Disciplinary Process; and the Honorable Stephen E. Hjelt - Hearing Process. There were twenty experts in attendance. Post-training evaluations indicated that the speakers were exceptional, the manual is informative, and the case sample reports in the manual are good examples. There were a few comments that the case review session itself was not as organized as it could have been and staff tends to agree with these comments. In 2011, staff plans to hold this same training in Northern California. BPM consultants have already begun to re-work the case review portion of the program. Board Members will receive a copy of the June 2010 Expert Reviewer Training Manual and DVD.

b. Data Reports.....J
Complaint and Disciplinary Date Report, Continuing Competence Report, BPM and MBC Matrix Reports, the Monthly Enforcement Report to DCA, and the Probation Report are exhibited in Tab J.

- c. **Overview of the enforcement process.....K**
The Overview of the Enforcement Process is exhibited in Tab K.

- d. **Proposed Revisions: Manual of Disciplinary Guidelines.....L**
Staff is currently reviewing the Medical Board of California's proposed changes to the Uniform Standards regarding Substance-Abusing Healing Arts Licensees (SB1441) and related boilerplate language prepared by DCA. These standards were implemented by the Department of Consumer Affairs, Substance Abuse Coordination Committee. Proposed changes to the Board's 2005 Manual will be reviewed by the Enforcement Committee prior to the next meeting and will be exhibited in the October 2010 agenda book.

Investigation

Complaints investigated by the program whether by desk investigation or by field investigation.
Measured by date the complaint is received to the date the complaint is closed or referred for enforcement action.
If a complaint is never referred for Field Investigation, it will be counted as 'Closed' under Desk Investigation.
If a complaint is referred for Field Investigation, it will be counted as 'Closed' under Non-Sworn or Sworn.

ENFORCEMENT COMMITTEE

Overview of the Enforcement Process:

Licensing and enforcement of the Medical Practice Act are the two major responsibilities the Legislature has assigned to the Medical Board of California (MBC) and the State Board of Podiatric Medicine (BPM). BPM contracts with the larger MBC for services, including those from Central Complaints and regional offices of investigators. MBC and BPM contract with the Attorney General's office for prosecution, use independent Administrative Law Judges (ALJs), and follow the State Administrative Procedure Act (APA) like all other state licensing boards to ensure due process.

Complaints are initially assigned to a consumer services analyst for review. The most common type of complaint received involves quality of care. When a complaint involving medical care and treatment is filed and a release is signed, the MBC will obtain copies of all medical records, as well as a written summary of care from each of the treating medical providers. Once all records and summaries are received, the entire file will be forwarded to one of the BPM consultants for a thorough review.

The podiatric medical consultant's evaluation will determine whether the complaint requires further review by one of the MBC's investigative offices or whether the Central Complaint Unit will close the complaint. If the review determines that the actions of the doctor were not below the acceptable standard of medical care, the Board has no authority to proceed, and the complaint will be closed. If the Board finds that the treatment fell below the standard of care but does not represent gross negligence, the complaint will be closed but will be maintained on file for the Board's future reference.

If a complaint is referred to an investigative office, the investigator will review and gather all factual evidence, send the case to an expert reviewer and conduct interviews. During the interview process, the consultant and the Deputy Attorney General assigned to the case will participate. If the investigator, after these reviews, recommends a case be referred to the Attorney General, the board's enforcement coordinator authorizes the transmittal. A Deputy Attorney General then reviews the case and, if appropriate, prepares an Accusation. Once signed by the board's Executive Officer, the Accusation becomes a public document, and a hearing is then scheduled before an Administrative Law Judge (ALJ). Frequently, the Board and the doctor settle out of court by entering into a Stipulated Agreement.

If the case goes to hearing, the ALJ takes the testimony and prepares a proposed decision based on the official record of evidence. Both stipulated agreements and proposed decisions go to the board (the seven board members appointed by the Governor and Legislature) for decision.

In summary, "Administrative Discipline" results from the Board's review of complaints submitted by patients, providers, facilities, insurers, and other law enforcement agencies. Last fiscal year (July 1, 2008 through June 30, 2009) 108 complaints were received by the MBC's Central Complaint Unit. Of those complaints, 62 involved quality-of-care and were reviewed by podiatric medical consultants. 19 cases, originating in or before fiscal year 08/09 were sent to investigation, and 9 of those were reviewed by an expert reviewer. Of the 10 Board Decision and Orders that became effective last fiscal year, 8 cases settled and 2 went through the administrative hearing process
