

**PODIATRIC MEDICAL BOARD OF CALIFORNIA
BOARD MEETING
June 18, 2026**

SUBJECT: LICENSING PROGRAM REPORT

ACTION: RECEIVE AND FILE STATUS REPORT

VIA 1-5

Committee Members:
Sumer Patel, DPM Chair

RECOMMENDATION

Receive and file the status update report on Licensing Unit activity.

ISSUE

This status report highlights key statistics of PMBC’s Licensing Unit and other licensing activity of note since last reported at the November 7, 2025, meeting of the Board.

DISCUSSION

The following data below lists current and up to date information for all licensing statistics, including new licenses and renewals.

1. Licensing Statistics

The following Licensing Report reflects a current capture of licensing statistics including new licenses and renewals during FY 25/26 Quarter 1-3 running from July 1, 2025, through March 31, 2026.

Licensing Statistics – New Licenses Issued, Year Over Year Comparison

This report provides a comparison of PMBC licenses that have been issued during the three previous fiscal years for: 22/23, 23/24, 24/25 and those issued to date for FY 25/26. In FY 22/23 94 permanent licenses were issued; FY 23/24, 98 permanent licenses; FY 24/25, 94 permanent licenses; FY 25/26, 56 permanent licenses to date. For a grand total of 342 newly licensed DPMs in the last four fiscal years. A comparison of gender, age and incoming to outgoing DPMs is provided for review. The categories for the outgoing licensee population include retired, inactive, disabled and *canceled licenses.

**License cancels after 3 years of non-renewal.*

A breakdown of licensing data includes the number of initial applications received that are currently pending. Of the 37 pending applications, two candidates recently completed their packages.

For fiscal year 25/26, PMBC had 20 of its applicants come from out of state, 26 were third year residents from California and 10 were third year residents from an out of state program. (Attachment A)

Licensing Statistics - Renewal Data and Renewal Data Breakdown

This report provides an overview of license renewal data for FY 25/26 for which full reporting data is available and running from July 2025 – March 2026. In the month of July, 105 license renewals were mailed with 101 licenses renewed by the end of the month. During the month of August, 112 renewals were mailed with 99 licenses renewed by the end of the month. In the month of September, 100 license renewals were mailed with 95 licenses renewed by the end of the month. In October there were 97 renewals mailed with 92 licenses renewed by the end of the month. In November there were 96 renewals mailed with 90 licenses renewed by the end of the month. In December there were 88 renewals mailed with 79 licenses renewed by the end of the month. In January there were 89 renewals mailed with 78 licenses renewed by the end of the month. In February there were 113 renewals mailed with 105 licenses renewed by the end of the month and March had 77 renewals mailed with 70 licenses renewed by the end of the month. For licentiates that did not comply with renewal requirements, Delinquent Renewal Notices were mailed to all pending renewals 30 days after license expiration.

License renewal data is broken down to include those that have filed for a Retired, Military, Disabled or Inactive modifier. Also included is the number of licensees in Delinquent status in addition to those whose status has changed from Active to Cancelled, Revoked, Surrendered or Reinstated. (Attachment B)

Licensing Statistics – Residents

This report reflects the Resident licensee base to date. The resident academic year started on July 1, 2025 and will end on June 30, 2026. PMBC currently has 43 first year residents; 43 second year residents; and 46 third year residents. There were two residents added to the 2nd year resident rotation bringing the resident license total count to 134. Resident data includes the number of third year residents that currently hold or are applying for a permanent license. (Attachment C)

2. American Podiatric Medical Licensing Examination (APMLE) – Part III Examination Results

The last APMLE Part III Exam was administered on December 1, 2025. There was a total of 27 candidates that requested their scores be sent to California. Of those

candidates, 25 passed for a 93% pass rate. The next APMLE Part III exam will be held on May 14, 2026. Candidates wishing to participate in the next exam will need to register by April 23, 2026. Additional information regarding registration may be obtained by visiting the APMLE website at: <https://www.apmle.com/about-the-exam/exam-schedule/>

3. Continuing Medical Education (CME) Audit Update

Licensees' were mailed an audit notification on November 12, 2025 and all candidates selected were given a deadline date of December 31, 2025 to submit evidence of compliance. As of February 2026, out of 151 audited licensees, 121 have been found in compliance. 30 licensees were short and as a result have failed the audit. Of the 30 failures, eight licensees will be subject to a cite and fine. These licensees' are now required to make up the deficient credits by their next expiration date in 2027.

4. Discussion and Possible Action Regarding Residency Program Approval Process

The Licensure Committee recommended that programs approved by Council on Podiatric Medical Education (CPME) automatically be considered an approved residency program of the Board.

Under the current process, residency programs must be approved annually by the Board. This approval process already includes CPME approval as part of the requirements for Board approval.

CPME is an autonomous accrediting agency for podiatric medical education. CPME evaluates and accredits podiatric medical education programs in the United States, including both of California's podiatric medical schools and all of California's current podiatric residency programs. CPME has been authorized by APMA to accredit institutions that sponsor residency programs that demonstrate and maintain compliance with established standards and requirements. Podiatric residency approval is based on programmatic evaluation and periodic review by the Residency Review Committee and the CPME.

The Committee believes that CPME thoroughly reviews and monitors podiatric medical residency programs. By automatically considering programs approved by CPME as approved by the Board, the Committee believes that it will provide numerous benefits to the public. The change would align the Board's process with the Medical Board of California's procedures for approving postgraduate training programs. It would still ensure adequate oversight of these programs for public protection purposes, while reducing administrative redundancies and expediting the initial licensure process.

Board staff requests that the members approve and direct staff to pursue options including a possible legislative change that would allow CPME approval to serve as automatic board approval for podiatric residency programs.

Attachment D – MBC BPC 2096

Attachment E – PMBC BPC 2475.3

5. PMBC Calendar (February 2026 – April 2026)

Provided for committee planning purposes and review is a 3-month timeline to enhance committee awareness for pertinent dates and approaching deadlines. (Attachment F)

NEXT STEPS

Staff will continue to maintain the Licensing Program by remaining current with processing applications, performing operations without backlog, and responding to specific inquiries from consumers, licensees and stakeholders on a daily basis.

BUSINESS AND PROFESSIONS CODE

Section 2096

2096. (a) In addition to other requirements of this chapter, before a physician's and surgeon's license may be issued, each applicant, including an applicant applying pursuant to Article 5 (commencing with Section 2105), shall show by evidence satisfactory to the board that the applicant has received credit for at least 12 months of board-approved postgraduate training for graduates of medical schools in the United States and Canada or 24 months of board-approved postgraduate training for graduates of foreign medical schools approved by the board pursuant to Section 2084 other than Canadian medical schools, pursuant to the attestation of the program director, designated institutional official, or delegated authority for the approved postgraduate training program where the applicant participated.

(b) The postgraduate training required by this section shall be obtained in a postgraduate training program approved by the Accreditation Council for Graduate Medical Education (ACGME) in the United States, the Royal College of Physicians and Surgeons of Canada (RCPSC) in Canada, or the College of Family Physicians of Canada (CFPC) in Canada.

(Amended by Stats. 2023, Ch. 294, Sec. 9. (SB 815) Effective January 1, 2024.)

State of California

BUSINESS AND PROFESSIONS CODE

Section 2475.3

2475.3. (a) The board shall approve podiatric residency programs, as defined in Section 2475.2, in the field of podiatric medicine, for persons who are applicants for or have been issued a certificate to practice podiatric medicine pursuant to this article.

(b) The board may only approve a podiatric residency that it determines meets all of the following requirements:

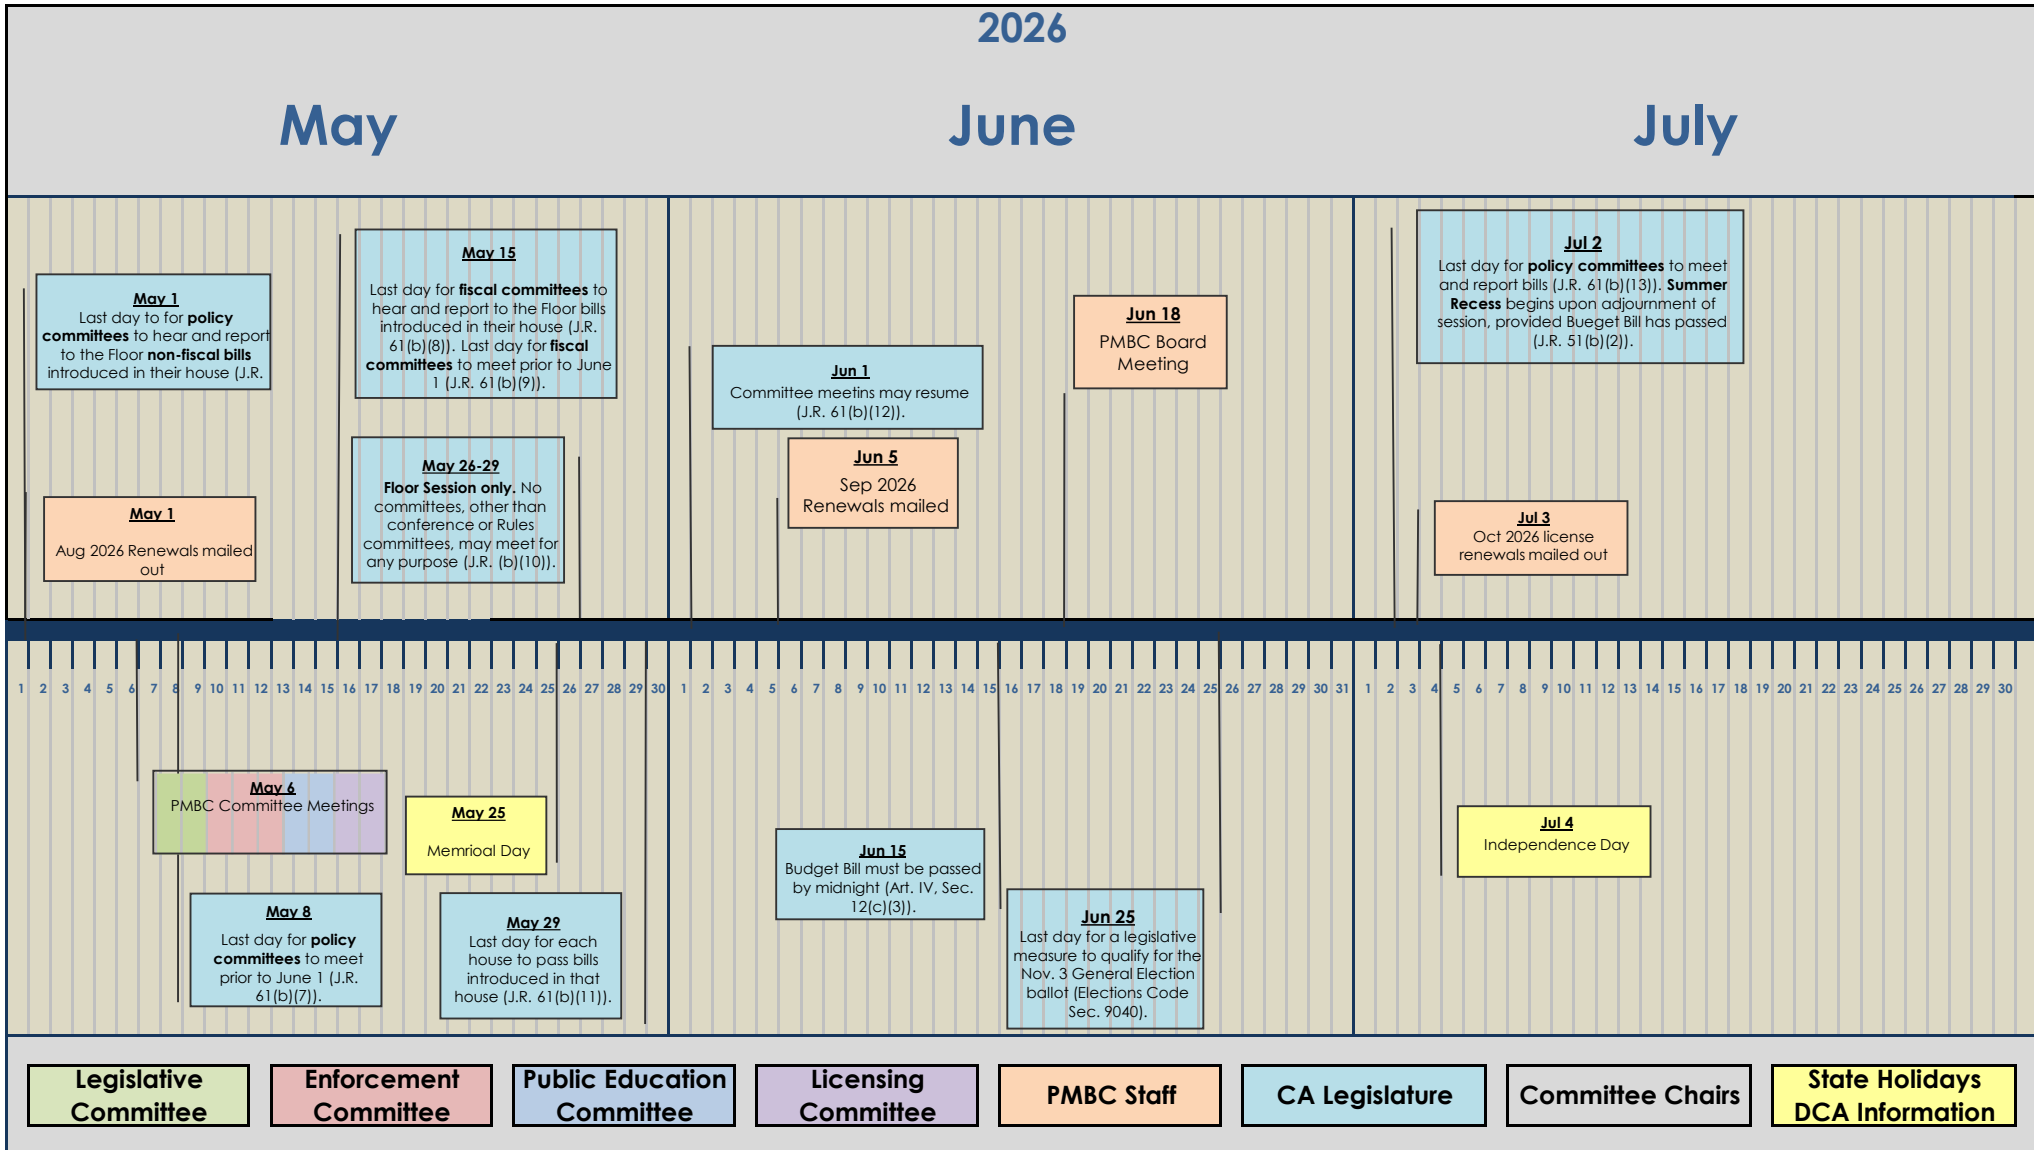

(1) Reasonably conforms with the Accreditation Council for Graduate Medical Education's Institutional Requirements of the Essentials of Accredited Residencies in Graduate Medical Education: Institutional and Program Requirements.

(2) Is approved by the Council on Podiatric Medical Education.

(3) Complies with the requirements of this state.

(Amended by Stats. 2003, Ch. 586, Sec. 1. Effective January 1, 2004.)

PMBC Calendar

**PODIATRIC MEDICAL BOARD OF CALIFORNIA
BOARD MEETING
June 18, 2026**

**SUBJECT: DISCUSSION AND POSSIBLE ACTION OF RECOMMENDATION
FOR APPROVAL OF CALIFORNIA PODIATRIC RESIDENCY
PROGRAMS FOR ACADEMIC YEAR 2026-2027**

VIA 6

ACTION: REVIEW AND APPROVE QUALIFYING RESIDENCY PROGRAMS

RECOMMENDATION

Review and approve qualifying California residency programs.

ISSUE

18 separate California Post-graduate clinical training programs seek approval of applications of residency programs offered for the 2026-2027 academic year.

DISCUSSION

Section 2475.2 of the California Business and Professions Code (the “Code”) defines podiatric residencies as post-graduate clinical training programs that are supervised and last one or more years in duration. These clinical training programs offer graduates of colleges or schools of podiatric medicine the opportunity and expectation to function as members of the health care team and gain hands-on medical and surgical training and experience in patient management in addition to structured learning in the diagnosis, treatment and care of podiatric pathology.

As part of the Podiatric Medical Board of California’s (“PMBC”) licensing initiative that is unique to California, the Board requires a Podiatric Resident’s License for all post-graduate clinical training participants and requires successful completion of at least two years of podiatric medical and surgical residency before a certificate to practice podiatric medicine may be issued.

As part of the effort to ensure the quality of post-graduate clinical training in California, PMBC is legislatively required to approve podiatric residencies in the state under section 2475.3 of the Code for applicants or those individuals that have been issued a resident license to practice podiatric medicine.

Accordingly, consistent with stated requirements contained in section 1399.667 of the Podiatric Medicine Regulations, the Board may approve a podiatric residency provided that the program:

- 1) reasonably conforms with the Accreditation Council for Graduate Medical Education's Institutional Requirements of the Essentials of Accredited Residencies in Graduate Medical Education: Institutional and Program Requirements;
- 2) is approved by the Council on Podiatric Medical Education;
- 3) has a designated Director of Medical Education;
- 4) provides emergency medical training through emergency room rotations;
- 5) measures and evaluates the progress of participants;
- 6) measures and evaluates program effectiveness; and
- 7) has a minimum 75% resident pass rate on Part III of the National Board of Podiatric Medical Exam (the "Nat'l Boards") within the last five-year period.

Residency programs falling below the required minimum 75% passage rate on Part III of the Nat'l Boards may nevertheless be granted program approval if it is determined after inspection by the Board's site visit team or a review of reports submitted by the program that the program demonstrates reasonable conformance with all applicable requirements. Accordingly, the PMBC Licensing Committee may in its discretion recommend approval of the applications for a vote by the full Board

The applicable PMBC statutes and regulations are attached for Board reference in addition to submitted applications for Board review.

FINANCIAL IMPACT

Approval of this item will not have a financial impact on PMBC's FY 26/27 Budget.

POLICY IMPLICATIONS

Board action is consistent with PMBC's mandate for approval of post-graduate medical education for ensuring the quality of post-graduate clinical training in California as provided in:

- 1) Section 2475.3 of the California Business and Professions Code; and
- 2) Section 1399.667 of the Podiatric Medicine Regulations.

NEXT STEPS

With Committee approval, staff will forward program applications with corresponding recommendations to the full Board for consideration at the June 6, 2025 meeting.

Title 16. Professional and Vocational Regulations
Division 13.9. Podiatric Medical Board of California
Article 2. Licensing, Education and Certification

16 CCR § 1399.667

§ 1399.667. Postgraduate Medical Education.

Podiatric medical residencies approved by the board in accordance with Section 2484 of the code shall be those that meet the minimum requirements set by the Council on Podiatric Medical Education, have designated a Director of Medical Education, provide emergency medical training through emergency room rotations, measure and evaluate the progress of participants and program effectiveness, have at least a seventy-five per cent pass rate for residents taking the Part III exam of the National Board of Podiatric Medical Examiners within the most recent five-year period, and, in the board's determination, reasonably conform with the Accreditation Council for Graduate Medical Education's Institutional Requirements of the Essentials of Accredited Residencies in Graduate Medical Education: Institutional and Program Requirements, as revised effective September 1998, which are incorporated by reference in their entirety.

Reasonable conformance means that, in applying such requirements, the podiatric medical equivalent should be substituted for references made to general medicine, as appropriate. For example, in regard to resident eligibility and selection, references to "graduates of medical schools accredited by the Liaison Committee on Medical Education" should be interpreted as graduates of podiatric medical schools accredited by the Council on Podiatric Medical Education and approved by the Podiatric Medical Board of California.

If a residency program falls below the specified seventy-five per cent pass rate, the board may grant the program approval if it determines after review of reports submitted by the program or the board's own site visit team that the program is in reasonable conformance with all applicable requirements.

If your institution offers more than one type of podiatric residency program, please use a separate application for each program. The Board will not issue a Resident's License to any resident participating in an institution's residency program until the residency program application has been submitted and approved by the Board and the resident has met all necessary requirements. Unlicensed residents participating in programs that are not approved by PMBC may subject the institution to a Citation and Fine.
